Water Point
Millenium

ABOUT US

Water Point was set-up in a prime location of the national capital Region to bring to India Swimming Pools, Swimming Pool Equipment and Accessories of Australian brand Millenium. World-class equipment and accessories are made available to buyers from all facets of hospitality industry as well as interior designers who residential and commercial projects. We are a dealer of Swimming Pool Aluminium Vacuum Head, Pipe Less Swimming Pool Filter, Swimming Pool First Aid Kit, PEB Swimming Pool, Swimming Pool Drain Cover, and much more. As an ISO 9001-2015 certified company, we take a stand for providing our customers with equipment and accessories that are easy to install and performance oriented.

OUR SERVICES FEATURES

POOL CONSTRUCTION SERVICES

We are ready to bring your pool into reality using the latest pool construction techniques and materials.

POOL WATERPROOFING SERVICES

Our Company Offers Swimming Pool Waterproofing Service To The Customers Who Are Willing To Build A Swimming Pool At Their Place.

POOL EXCAVATION SERVICES

Has your pool seen better days? We can update and upgrade equipment, renovate liners, decks and more.

POOL DESIGNING SERVICES

Our Company Is Leading In Rendering Swimming Pool Digging Service To The Customers.

POOL REPAIR SERVICES

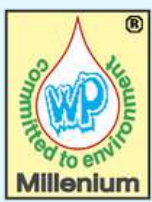

Don't let a leak or mechanical issue keep you from enjoying your pool. Our service technicians are here to help!

POOL BUILDERS

We Are A Renowned Swimming Pool Builder, And Provide This Service For All Types Of Swimming Pools, Whether Commercial Or Residential.

Water Point

SERVICES

POOL TYPES

ROOFTOP/ INFINITY TYPE POOL

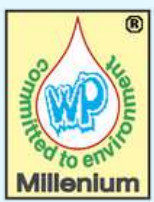

During each and every step of the project, our dedicated team members responsible for your project pay extra attention in implementing the design of swimming pool with a calculative measuring of the ground and proper levelling is done so that you are able to enjoy the swimming pool for years to come. Each of the pool constructed from our end is designed and constructed through following the standard code of principle and regulations that impart complete makeover to your property. We offer you with a top notch quality of structure at the most affordable rates.

OVERFLOW TYPE POOL

Overflow pool has at least one edge over or more through which water overflows & creating a dramatic visual effect. Overflow type pools are construct with over flow drain channel on the sides of the pool with top edge and water over flows to the drain this water travel to a balancing tank and then pool pump take the water from balancing tank and feed to the pool this complete the cycle of filtration process.

Water Point
Millennium

HYDRO THERAPY / COUNTER CURRENT TYPE POOL

These pools are purposely built indoor to maintain the temperature of water. Hydrotherapy is a therapeutic whole-body treatment that involves moving and exercising in warm water; essentially physiotherapy in a pool. Hydrotherapy pools are usually different from ordinary pools. Temperature & pressure of water is controlled and changed according to requirements. Suggestible temperature of pool should be 28 degree to 35 degree Celsius.

COMPETITION TYPE POOL

Competition Type Pool - With the exclusive, flexible Water Point Pools design/build system, our work easily meets the exacting needs of the world's top aquatic competition venues. Our competition pools and performance pools deliver gold-medal standards for swimming, water polo, artistic swimming, diving and high diving.

JACUZZI TYPE POOL

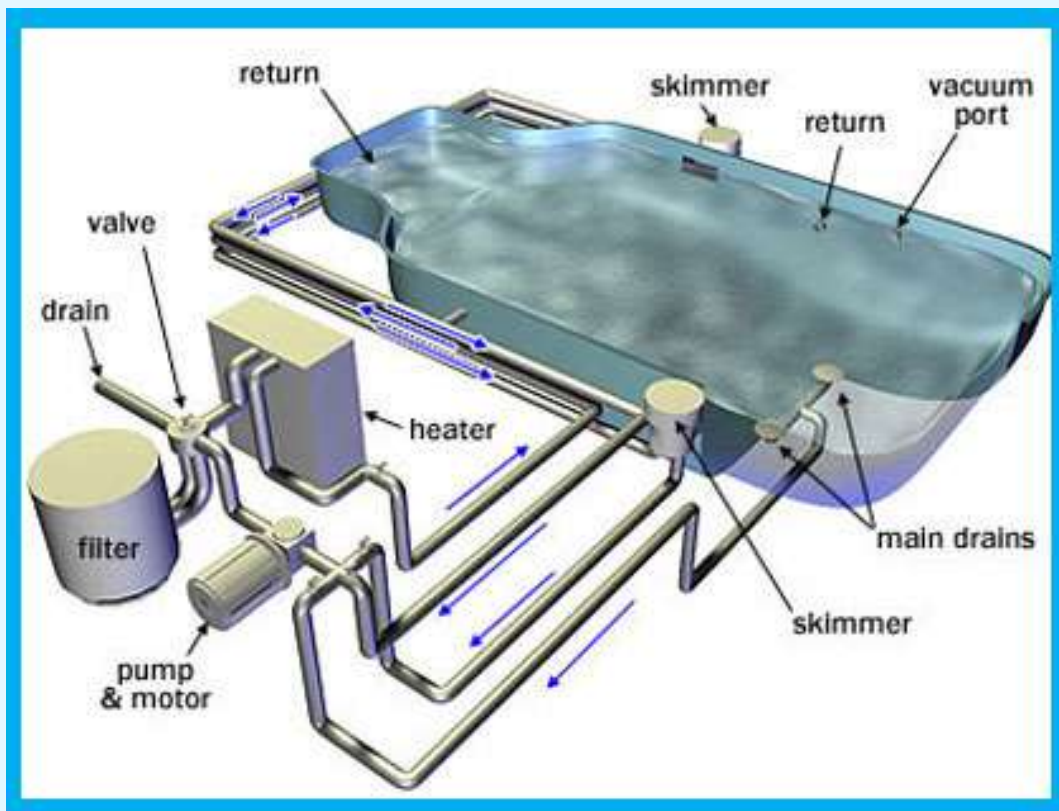

Jacuzzi is generally constructed from a permanent hard material and is designed to suit your specific tastes. These Jacuzzi spas are actually a type of custom spa that is set into the ground, with the top of the spa located at or near ground level.

SWIMMING POOL CONSTRUCTION SERVICES

SWIMMING POOL DESIGNING SERVICE

We are a renowned Swimming Pool Builder, and provide this service for all types of swimming pools, whether commercial or residential. Assured timely completion of work with high level of excellence is offered to the customers. Optimum quality material is used for the construction purpose which makes the pool look more impressive and attractive.

SWIMMING POOL EXCAVATION SERVICE

Our company offers construction service of Swimming Pool Concrete to the customers wishing to build a swimming pool at their place. The service is offered by our expert and skilled workers who ensure excellence in their work. The construction service is rendered within the stipulated time and as per the specifications.

Water Point
Millennium

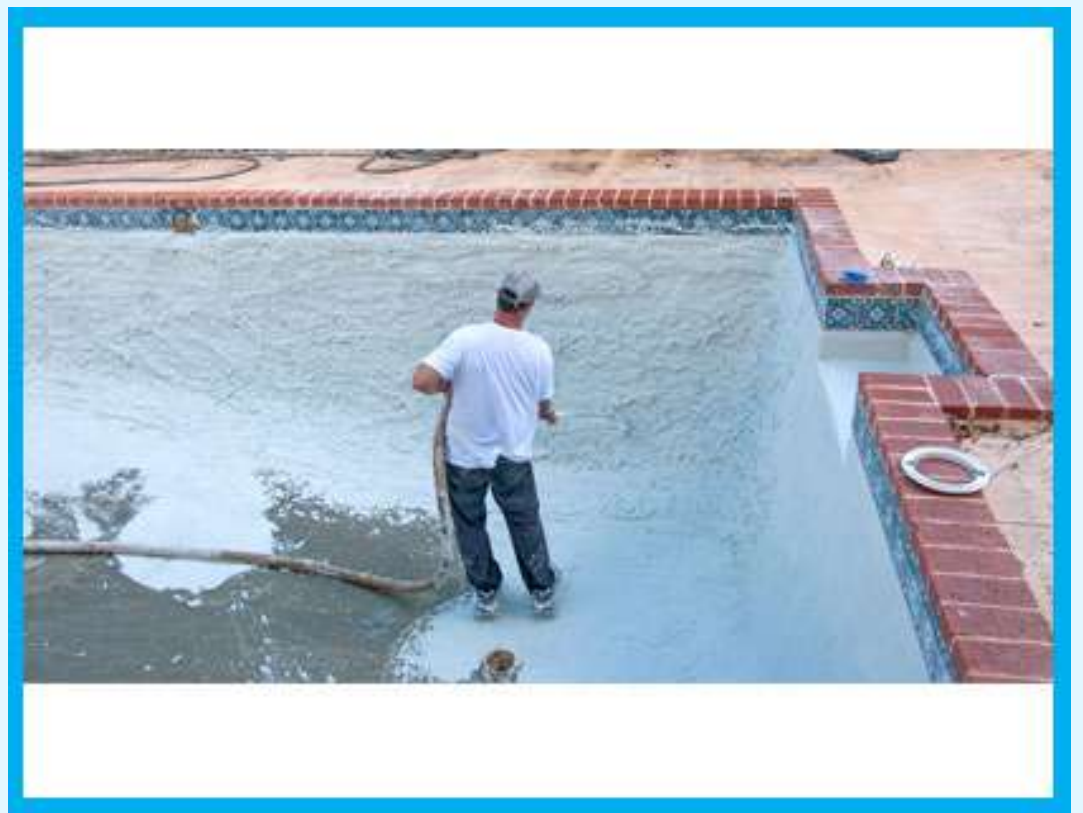

SWIMMING POOL CONSTRUCTION SERVICE

Owing to the tremendous expertise in the functional domain, our company Halbert Swimming Pool engrossed in providing Swimming Pool Construction Service to the clients across the city of Delhi. Offered construction services are rendered under the supervision of our deft architects who construction swimming pool with creativity and utmost perfection. Our professionals swimming pool contractor utilizes high quality raw materials and other materials to construct the pool with the aid of innovative technology as per defined market norms. Moreover, these Swimming Pool Construction Service are rendered by us at marginal prices to our respectable clients.

SWIMMING POOL WATERPROOFING SERVICE

Our company offers Swimming Pool Excavation Service to the customers who are willing to build a swimming pool at their place. The service is highly reliable and is rendered by skilled workers who ensure perfection in their job. The Swimming Pool Excavation Service is provided for all kind of swimming pools such as roof top, hot tub and spa, competition, public and private pools. Also, we hold expertise to excavate all types of large and small pools. The task is completed within the stipulated time frame and as per the required specifications by ensuring high level of excellence in the service.

Water Point
Millennium

SWIMMING POOL TILES INSTALLATION

We are a prominent Swimming Pool Water proofing and take complete responsibility to Water proof your swimming pool as per the required specifications . Clients are assured timely and efficient completion of the Water proof. Also, being a leading Swimming Pool Water proof, we provide Water proof service for all kinds of pools whether small or large, commercial or residential. Using latest Water proofing methods and using optimum quality material, the service is rendered by skilled workers who ensure perfection in their work.

SWIMMING POOL REPAIR SERVICE

Our company is leading in rendering Swimming Pool Digging Service to the customers. The service is ideal for all types of swimming pools, small or large, commercial or residential. The digging service is rendered by hardworking workers under the supervision of experts by using latest machines such as cranes to ensure perfection in work. Our Swimming Pool Digging Service is offered as per the required specifications. Also, we assure timely completion of the work with with no compromise on the excellence.

POOL FILTERS

POOL TOP MOUNT SAND FILTER

FEATURES:

The fiberglass winding design enables the filter to be durable, deforming-proof and corrosion resistant. A unique and advanced design ensures fast draining and stabilizes water flow.

The 6-position multi-port valve with a user friendly handle easily provides you a maximum flow at low pressure drop.

The Sand filter comes with a precise pressure gauge. It is easy to install and to maintain.

The Outlet turbidity is less than 2FTU.

Working pressure is 2.5 Kg cm²/36 psi.

UV resistance surface allows the filter to work under direct sunlight.

Maximum operating temperature is 50°C.

POOL SIDE MOUNT SAND FILTER

The fiberglass winding design enables the filter to be durable, deforming-proof and corrosion resistant. A unique and advanced design ensures fast draining and stabilizes water flow.

The 6-position multi-port valve with a user friendly handle easily provides you a maximum flow at low pressure drop.

The Sand filter comes with a precise pressure gauge. It is easy to install and to maintain.

The Outlet turbidity is less than 2FTU.

Working pressure is 2.5 Kg cm²/36 psi.

UV resistance surface allows the filter to work under direct sunlight.

Maximum operating temperature is 50°C.

Smooth & High brightness appearance easy to clean.

Water Point
Millennium

HIGH QUALITY FILTER MEDIA

The single media filtration by use of filter sand is widely spread as a general filtering method. However in these days the treated water quality standards are tightened in addition to the deterioration problem of raw water quality arisen from the growth of algae and cryptosporidium, the part of filtration, which is a key point of water purification become more important and performance is required. Pre-filtration to protect membrane process from fouling. Filtration of cooling water to prevent heat exchanger fouling. Pressure filters uses granular media to remove contaminants from water.

POOL CARTRIDGE FILTERS

FEATURES:

Single locking knob securely fastens head to filter tank, eliminating bolts.

Attractive, durable filter head can be rotated to conveniently position pressure gauge and manual air relief.

Injection-moulded filter tank for dependable, corrosion-free performance.

Elevated, filtered water collector and debris sump prevents accidental by-pass of heavy debris to pool or spa when cartridge is removed for cleaning.

Working pressure is 2.5 kgf/cm square/36 psi.

Outer cover made of reinforced plastic & cartridge element is made of working polyester material.

Suitable for inground pools, Public Pools, Water Amusements Parks, Sea Water and Fresh water breed aquatics.

Cartridge element can be reused after cleaning.

SUPERIOR POOL PIPELESS FILTER

Pipeless Filter

The enclosure of wall-mounted filter is made of high quality Acrylic, so the filter installation without room, simple installation, convenient operation, excellent performance thereby reducing the construction cost. The filter is made according to Countries codes and standards.

TECHNICAL CHARACTERISTICS

Dimensions	1110 X 67 X 780mm
Flow Rate	10m ³ /h 15m ³ /h

COMBO FILTER PUMP

Combo Filter Pump

Designed For easy set up domestic pool,PSF series filtration combo offers the right solution for home user who is looking for user friendly and excellent filtration performance. FSF Series filtration Combo include top mount fiberglass filter tank-6 way muliport valve swimming pool pumps attatched with base.

HIGHLIGHT FEATURES:

Max Operating Pressue 36psl/2.5 bar

Max temperature of 43°C (109 f)

Universal Standard of union connection provided
suggested size of media:0.5-1.2mm

CARTRIDGE ELEMENT

Cartridge Element

VERTICAL DEEP BED SAND FILTER

Vertical Deep Bed Sand Filter

POOL PUMPS

SWIMMING POOL PUMP

WP 075 And WP 100

Pole induction motor Single-phase : 220-240/50Hz Single-phase with thermal protector

- Capacitor inset
- Insulation class F
- Protection IPX5
- Continuous duty

FEATURES

Wet ends made of high reinforced engineering thermal plastic with compact structure and corrosive-resistance.
1.5 inch Inlet and Outlet
High efficient structure design for diffusor and impeller to get higher performance
No contact between motor shaft and liquid.
. Motor / Pump shaft has no contact with the water
Continuous Operations

COMMERCIAL SERIES PUMP

Commercial Series Pump

MATERIALS

- Self priming pump
- Injected thermo plastic pump casing
- Filter basket in white color injected plastic material
- Prefilter lid in transparent polycarbonate
- Stainless steel studs
- Impeller and seal mounting in PPO
- Motor shaft in stainless steel AISI 420
- Mechanical seal in graphite and SIC
- Motor housing in aluminium L2521

MOTORS

1. Asynchronous, two poles
2. IP 55 protection
3. Class F insulation
4. Continuous operation
5. Single phase version built in thermal protection

SWIMMING POOL PUMPS

Swimming Pool Pump

MOTOR

1. Asynchronous, two poles
2. IP 55 protection
3. class F Insulation
4. Continuous operation
5. Single phase version built in thermal protection

MATERIALS

- Self priming pump
- Injected thermo plastic pump casing
- filter basket in white color injected plastic material
- prefilter lid in transparent polycarbonate

- Impeller shaft i stainless AISI 420
- Mechanical seal in graphite and SIC
- Motor housing in aluminum L 2521

COUNTER FLOW PUMP

Counter Flow Pump

Output:- 4KW / 5.5HP 220 / 380V / 50HZ
Q.MAX:- 1167 l/min
H.MAX:- 14.5m
R.P.M:- 2850 r/min IP55
Size:- 75mm X 75mm

Modal: HWCC04003-02

Singal Stage Certifugal Pumps With Complete Drainage Device.

Inbuilt counterflow System:

This jet Stream is for easy installation. It is possible to regulate The jet Strength and air suction. On the Nozzle of 40mm In diameter, Which is directionally adjustable. The Nozzle, Suction And Phneumatic Switch are Positional In The Front Cover Panel of The equipment. Complete Flow System Include:-

Counter Flow Nozzle 40mm Front Cover Pannelk Attractive Design Pool wall lead through pump Electro pneumatic Switch safety Element PVC Fitting

MOTOR:

Asynchronous, Two Poles, IP 55 Protection
Class F Insultion

MATERIAL:

Suction and Discharge Mountings In Polyproplier
Motor Shaft Stainless Steel 304

Water Point
Millennium

HQ 150, HQ 200, HQ 300

APPLICATIONS:

Jet pump for bath tubs, spa pools, swimming pools, massage stations and cleaning systems.

FEATURES:

- Motor / Pump shaft has no contact with the water.
- Total electrical separation.
- 2.2L pre filter.
- 2" Inlet & outlet.

OPERATIVE CONDITIONS:

- Liquid temperature from +5°C ~ +60°C
- Ambient temperature up to 50°C
- Max. working pressure : 3 bar

MOTOR:

- 2-pole induction motor single-phase : 220-240/50HZ single-phase with thermal protector T.I.
- Capacitor Inset
- Insulation class F
- Protection IPX5

SPA PUMP

Hi Pressure SPA PUMP available with its different variant

- Stainless Steel Studs.
- Injected Thermo Plastic Pump Casing.
- Suction and Discharge in polypropylene.
- Impeller in PPO.
- Mechanical Seal in SIC & SIC.
- IP 55 Insulation.
- Motor Housing in aluminium L 2521.
- Continuous Operation.
- Application for Spa, Jacuzzi, and Bath Tub.

WORKING CONDITIONS:

Medium temperature: 5-50°C

Environmental temperature : < 40°C

Max. working pressure: 0.3 MPa

PRODUCT FOCUS:

Best working point, large flow, high efficiency. Electric pump over-current components using high-strength engineering plastic, with high-quality wear-resistant mechanical seal; Three phase motor apply for gasket and tread to avoid impeller reversal and loose; The stator is applied by molding process with resistance. Moisture. heat security, 90 frame equipped with specialized plastic mounting bracket pump apply for low noise standard motor. Single-phase with thermal protector from TI, USA; Motor is with high temperature bearings, long operating life with reliability and durability; Complete separation of water and the axis, safe and reliable; Insulation class F, Protection IPX5. The pump obtained the certification of CE.

POOL-HEATING-SYSTEM

SPA HEATER

Spa Heater

The Water Point Spa Heaters are intended for use small pools, jacuzzi and spa system. It will maintained the water at any relaxing and an enjoyable temperature.

FEATURES:

- Digital Control Panel.
- Powder Coated/ Stainless Steel Cabinet.
- Ip36 Water Proofing.
- User Friendly.
- Easy Installation
- Easy Servicing.
- Suitable for small pools jacuzzi and spas.
- Shut down automatically.
- Can be set at desired temperature.
- Available in 9kw, 12kw, 15kw, 18kw, 20kw, 24kw, 30kw 35kw, 40kw, 45kw, 50kw, 55kw, 60kw.

DOMESTIC HEAT PUMP

Domestic Heat Pump

Patented high-performance titanium exchanger has more stable performance and greatly resist erosion of chlorine ion water, solid and durable.

Exterior is anti-UV plastic ABS corrosion resistant casing material with injection model or normal plastic model.

By using high-heat exchanger technology, 65-80% of running cost can be saved compared with other heating machines. It consumes 1kw to produce about 5.5kw heating capacity, possessing high COP.

Heating and cooling with reversible defrosting.

Remote and intelligent controller design with Celsius of fahrenheit temperature display for options.

LCD or colorful LED controller for options Super power failure memory.

Flow switch built-in to avoid the low level water or devoid of water.

Advanced technology to mute noise from compressors and fans.

ELECTRO HEATER

FEATURES:

- Fully equipped
- Easy Installation
- Robust, durable construction
- Analogue control with 1C Differential
- Incoloy 825 or Titanium heating elements
- 316 Stainless Steel or Titanium flow tube
- Ultra-reliable flow switch allows safe operation as low as 1,000 ltr/h
- May be floor or wall mounted using swivel foot
- Control thermostat and safety thermal cut out (manual reset)
- 3 years conditional warranty

CONSTRUCTION

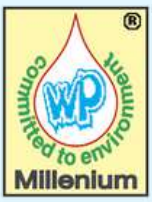

The ELECRO EVOLUTION pool heater is manufactured from top quality components and materials at the Elecra works in Hertfordshire, England.

Construction consists of a flow tube which is fitted with Inlet and Outlet mouldings manufactured from specially formulated polymer alloy material. Universal ABS unions are provided to allow solvent weld connection to the inlet and outlet pipe work. The outlet moulding accommodates a reversible flow switch with a gold tipped reed, and Titanium pin.

The heater is supported on two swivel feet; these can swivel to permit either wall or floor mounting. The heater control components are positioned on the front face of the casing. The water inlet and outlet fittings can facilitate connection to either metric or imperial standard pipe. The inlet moulding has been designed to ensure full immersion of the elements, greatly reducing the risks of air locking.

OPERATION

The desired pool temperature can be easily set on the ELECRO EVOLUTION heater using the panel-mounted thermostat dial. The single or three-phase power is supplied through a top quality Schneider contactor. Safety and equipment protection is provided by the highly reliable flow switch. Over-temperature protection is provided by the thermal cut out (manual reset).

SAUNA & STEAM

SAUNA HEATER

FEATURES AND ADVANTAGES:-

- Stainless steel outer casing of the heater.
- Operating Switches are placed on the upper part on the side of the heater.
- Sauna heater is suitable for dry or wet saunas.
- Heavy duty electrical elements and long durability.
- Easy to install
- Fast warm - up due to vented body design.

BENEFITS:-

- Relieves congestion.
- Relaxes from overworked muscles.
- Deeply clean and moisturizes the skin.
- Detox your body.
- It makes you feel mentally/physically relaxed

SAUNA GENERATOR

STEAM GENERATOR STANDARD FEATURES & ADVANTAGE:-

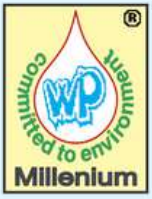

- Stainless steel reservoir.
- Heavy duty heating element.
- Electronic water-level control system.
- Safety valve for extra precaution
- Built-in low voltage protector.
- Available in 4Kw, 6Kw, 7.5Kw, 8Kw, 9Kw, 10Kw, 12Kw, 13.5Kw, 15Kw, 16.5Kw, 18Kw., 19.5Kw, 21Kw & 21.5Kw, 22Kw.

SAUNA ROOM & ACCESSORIES

SAUNA ROOM & ACCESSORIES

A sauna is a small size of room can be heated at very high temperature, with well control humidity. The water point benefit and therapeutic value saunas provide have been known for countries. water point offers arange of saunas to help relax and improve overall health as well as promote well being. Saunas are also used for recreational purpose. Standard residential sauna sizes are- 5'x7' & 6'x7'. Top bench should be 7' long.

RO PURIFIER

RO PURIFIER

FEATURES:

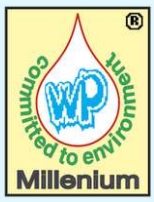

- The fiberglass winding design enables the filter to be durable, deforming-proof and corrosion resistant
- A unique and advanced design ensures fast draining and stabilizes water flow.
- The 6-position multi-port valve with a user friendly handle easily provides you a maximum flow at low pressure drop.
- The Sand filter comes with a precise pressure gauge.
- It is easy to install and to maintain.
- The Outlet turbidity is less than 2FTU.
- Working pressure is 2.5 Kg cm²/36 psi.
- UV resistance surface allows the filter to work under direct sunlight.
- Maximum operating temperature is 50°C.
